DataOpus

Database forensics to protect student and staff data

K-12 schools average two cybersecurity attacks per school day, do not be one of them. Use DataOpus to find and eliminate hidden security & privacy issues lurking in your databases.

Alignment to educational compliance

- ✓ CISA Recommendations for K-12 Organizations
- ✓ California Consumer Privacy Act (CCPA)
- ✓ Children's Internet Protection Act (CIPA)
- ✓ Children's Online Privacy Protection Act (COPPA)
- ✓ Family Educational Rights and Privacy Act (FERPA)
- ✓ Protection of Pupil Rights Amendment (PPRA)

Deep forensic analysis

- ✓ Real-time threat detection
- ✓ Detects hundreds to thousands of hidden issues
- ✓ Details best practices and how to quick fixes
- ✓ Automated risk scoring base on severity and likelihood to occur

Additional benefits

- ✓ Reduces time & cost to find hidden issues by 99%
- ✓ Built to support the US Critical Infrastructure
- ✓ Auditable for 3rd party assessors
